(Tallmadge, OH) – Walto Lift Corp. announces its Work Truck Gates Series. Waltco and Ultron have come together with an unmatched strength – offering the broadest liftgate product line available to the industry.

The Work Truck Gate Series consists of six liftgates organized as a group to offer an easier way to identify and spec Waltco liftgates within the Work Truck Classification. At a glance the following Work Truck Gates offer ease of installation, operation and performance as well as a lower cost of operation/maintenance and a higher return on investment.
