WALTCO NAMES WILLIAM KREUTINGER AS VICE PRESIDENT OF ENGINEERING

(TALLMADGE, Ohio, January 11, 2010) Waltco Lift Corp. has named William Kreutinger to the position of Vice President of Engineering. Kreutinger most recently served as Vice President of Engineering for Ultron Lift Corp. of Buffalo, NY, where he was responsible for all engineering. Kreutinger has spent his entire career in the liftgate industry starting with DEL Liftgates in 1990. Kreutinger is directly responsible for the design and development of the WDV Series of heavy duty railgates that have been marketed and sold in the US and Canada since 2003. This product has evolved in to the bench mark for performance, reliability and lowest possible total life cycle cost of any railgate product offering in the market place.

As Vice President of Engineering with Waltco, William is responsible for engineering strategic direction and day-to-day management of all engineering activities for the company.

"My primary focus is to maximize the value our liftgates offer by listening to and understanding our customer's needs. I look forward to working with and assisting Waltco's engineering team as we continue to build upon the progress we have made," he said.

A native of Buffalo, New York, he is based in the Tallmadge facility. He and his wife, Anne, have 9 children.

Waltco Lift Corp. (www.waltco.com) is the world's leading designer, manufacturer and marketer of hydraulic liftgates for truck and trailer applications. The Tallmadge, Ohio-based company has manufacturing operations in Tallmadge; and warehouses in Douglasville, Ga.; City of Industry, Calif. and Toronto, Ontario.
